

Parking Restrictions Lockstile Way

Can you please give me an update on the double yellow lines and restricted parking that is to be imposed onto Lockstile Way?

Lockstile Way and Lockstile Mead are packed every week day with people who park there to catch the train. They even park right at the top, where it joins the Wallingford road, making it very dangerous.

They start to arrive at 6.30am. The station car park is empty at that time. They just don't want to have to pay.
