20/18 To receive any declarations of interests

CH declared an interest in item P20/S0372/FUL (agenda item 6.2) and DB declared an interest in P20/S0462/FUL (agenda item 6.6).

20/19 Public Forum

A member of the public explained the roof changes in application P20/S0438/HH.

Several members of the public were present to give their observations concerning item 14.1 on the agenda (To consider correspondence received: E-mail concerning monitoring and supervising of the implementation of approved development plans). It was agreed to bring forward that item.

These members of the public expressed their disapproval of application P19/S2923/O, about which a consultation response was previously decided at the Planning Committee Meeting held on 29 October 2019, which therefore could not be re-determined as the closing date for consultations has passed. These members of the public expressed their concern about the rapidly changing situation regarding flood risk, as evidenced in the media with flood height records currently being broken nationally, and by two official changes to the Environment Agencies flood risk zones since the GNP had been prepared. They were extremely concerned about the potential of flooding for the proposed new houses, as well as the potential increase in risk to existing houses in the vicinity by the development proposals. They sought reassurance that changing evidence and up-dated guidance would be used to assess the impact on the current planning application ref P19/S2923/O for site GNP3 within GNP.

CH expressed concern about the importance of the Parish Council holding SODC Planning accountable to the necessary planning scrutiny. At one point in the discussion, one member of the public registered their concern at what they considered was the unsupportive attitude of the Planning Committee Chairman and that this concern should be recorded in the Minutes. Though it was highlighted there could not be a formal approval as there was no agenda item for the matter, it was felt that CH could, if she wished, discuss the situation with the SODC Planning Officer and report back at a future meeting at which there could be a specific Agenda item. At the end of the discussion, a member of the public
