

Appendix P

Proposal to relocate the Street light adjacent to 14 Milldown Avenue

The Council has received a request from Merritt Homes who have been granted permission to build a single dwelling on a site adjacent to 14 Milldown Avenue. Details of the application and the Planning Officer's decision are here: [P25/S1505/FUL](#).

Planning Permission was granted subject to the condition that the street light, currently blocking what would be the driveway to the development, should be relocated, at the applicant's expense and to the satisfaction of the relevant utility company, to a position approximately 6.5m further to the west along Milldown Avenue in accordance with drawing SL01 submitted with the planning application (shown below).

Merritt Homes contacted Oxfordshire County Council and were told that the street light was the responsibility of the Parish Council and they have accordingly asked the Council for a quote for the work and an indication of the process and timescales involved.

Councillors will note that the site cannot be developed until an agreement is reached on the re-location of the street light and that alternative locations to that proposed might prove preferable. Generally, the Council has rejected requests to move street lights on the grounds that their positions have been determined in the interest of highway safety. OCC Highways would need to be consulted as well as neighbours who may be affected.
