

## Appendix D- NICEIC Electrician for the Boat House Phone Box

Extract from GotPC Contract of Purchase from BT, p4:

5.2 The Buyer acknowledges that the Goods may have been painted with paint containing lead and accepts the health and safety risks which may be associated with its removal or maintenance. The Buyer also acknowledges that leaden paint may require specific maintenance procedures.

5.3 (a) Without affecting clause 6.3, the Buyer acknowledges that the kiosk may have a Class I light fitting and fuse spur(s) which do not meet current IP (ingress protection) rating requirements of BS7671 regulations for exterior electrical fittings. The Buyer accepts any health and safety risk with their ongoing use. The Buyer waives any claim against the Seller in respect of such matters. The Buyer also acknowledges that an upgrade to the light fitting and fuse spur(s) may be required which will be the sole responsibility of the Buyer. The Buyer may want to obtain an assessment from a qualified electrician.

(b) The Buyer agrees that the Goods are not intended to be used in any way by any person in the course of or in relation to their work. However, it agrees that, should a person at work do anything in relation to the Goods, it will take steps sufficient to ensure, so far as is reasonably practicable, that the Goods will be safe and without risks to health at all such times when it is being set, used, cleaned or maintained or otherwise interacted with by a person at work. In particular, the Buyer will ensure:

(i) that the light is upgraded to a luminaire meeting Class 2 with IP rating of IP54 (or better).

(ii) that the electrical supply housing is upgraded by replacing the spur units with IP66 type (or better).

The Buyer will employ an NICEIC registered electrician to review the installation, for the use it intends for the adopted kiosk, and carry out any required works in accordance with the then applicable regulations and standards.

The Buyer shall employ an NICEIC registered electrician to review the Goods for the use the Buyer intends, and for any required works. In addition, the Buyer will employ an NICEIC registered electrician for regular inspection and testing.

**Proposal: GoTPC employ a NICEIC registered electrician to inspect the BoatHouse phone box in light of the GASP proposal.**
